

EXTRANIMALS, THE AMAZING CRITTERS WHO CHANGED HISTORY

Do you know the story of Bucephalus, Alexander the Great's horse, of Gustave the crocodile or of Balto the Alaskan husky sled dog?

In the form of a factually accurate adventure story, this 2D animated series paints a portrait of these historic animals and sketches out the story of their companionship with humans, for better or for worse, but mostly for the delight of children. Authentic, unexpected, sometimes cruel and often incredible, the adventures of these Unforgettable Animals helped to change the way we look at animals by seeing them as individuals in their own right, actors in their own lives... and ours.
